in 2017**

Contacts: Mob. +39 342 6731301 Email:
marco.alberti18@gmail.com

"In this moment I'm looking forward to starting my Master degree in an international and challenging context. I am an open-minded person. I love to put myself in difficult positions and to overcome those situations by learning and growing. Flexibility is a quality that marks me and I can easily adapt to different contexts and places. Moving from my small hometown to Milan and then to Madrid, gradually helped me in acquiring the experience that now I want to put to the test in a longer international program."

BACHELOR OF SCIENCE CURRICULUM

Program:	Economics and Social Sciences
Title of final paper and advisor:	"Intergenerational mobility and the role of education in Italy" Advisor: Professor Massimo Anelli
Graduation score:	104/110 - 13 October 2017
Study abroad experience:	January - June 2017 - Universidad Carlos III From January 2017, Marco studied in Madrid for a semester, at the prestigious "Universidad Carlos III", as part of the Exchange program. During his six-month-experience in Madrid he achieved a good level in Spanish. He concluded his bachelor degree with a grade average of 27.2/30.
Internships/work experience:	In 2013 Marco had a three-month internship in an Italian factory, Mevis S.p.a. Then, the following summer, he started working in a small grocery store, trying to help his family to pay his university fees. Now he is looking for a curricular internship while waiting to start his master degree.
Languages:	English (IELTS - Level C1) Spanish (B2)

OTHER INFORMATION

- In 2013, as part of a high school project entitled “Dialogando”, Marco attended a conference of the EU Parliament in Strasburg.
- Marco has a good knowledge of the Office software, especially of Excel. Moreover, thanks to his final thesis and econometrics courses, he learned to manage the basic languages and commands of statistics programs such as EViews and Stata.
